NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 MARCH 2015

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Income

Income comprises grants and other income receivable from public sector bodies and other organisations. Income is recognised as and when the services for which it has been received have been performed, otherwise it is included in deferred income.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Fixtures and fittings	-	6 to 8 years straight line
Computer equipment	-	6 to 8 years straight line

1.4 Operating leases

Rentals under operating leases are charged to the Income and Expenditure Account on a straight line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight line basis over the period until the date the rent is expected to be adjusted to the prevailing market rate.

1.5 Pensions

The company operates a defined benefits pension scheme and the pension charge is based on a full actuarial valuation dated 31 March 2014. Any increase in the present value of the liabilities of the scheme expected to arise from the current or past service of employees in the year is charged in the income and expenditure account. The expected return of the scheme's assets and the expected increase during the year in the present value of the scheme's liabilities are included as interest payable or receivable in the income and expenditure account. Actuarial gains and losses are recognised in the statement of recognised gains and losses. Pension scheme assets, to the extent they are considered recoverable, and pension scheme liabilities are recognised in the balance sheet and represent the difference between fair value of the scheme assets and the present value of the scheme liabilities. Pension scheme liabilities are determined on an actuarial basis using the projected unit method and are discounted at a rate using the current rate of return on a high quality bond of equivalent term and currency to the liability.
